

告別傳統防霉劑

SAY GOODBYE TO TRADITIONAL ANTIFUNGAL AGENTS!

SB-CH00

完全不用破壞既有工作流程就可達到卓越 **防霉效果**

Excellent anti-mildew effect can be achieved without changing the existing work process.

操作簡易
Easy To Operate

快乾、環保節能
Quick-Drying & Energy Saving

完全滅菌
Completely sterilized

高抗潮
High Moisture Resistance

不需烤箱
No Oven Required

不沾染產品
Non-Contaminated Products

用量少，減少支出
Small Dosage, Low Cost

SB-CH00 氣相型防霉劑

Anti-Mold Agent

本產品透過其成分來滅菌，SB-CH00被釋放後會經由空氣流動來殺菌，將目標空間打造成無菌空間，達到完全防霉效果。濕度70度以下免開除濕機！

This product is sterilized through its ingredients. After SB-CH00 is sprayed, the anti-mold agent will be moving by air flow. It sterilizes the target space completely. No need to turn on dehumidifier below humidity 70 degrees!

傳統水溶性覆蓋防霉劑
Traditional water-soluble
anti-mold agent

SB-CH00
揮發型防霉劑
Volatile Anti-Mold Agent

人工成本 Labor Cost	人員需定期檢查機器與保養 Staff needs to check the machine and maintain it regularly	只需在鞋盒內噴兩下 Just spray twice in the packing box
工人接受度 Worker Acceptance	較低，因其噴霧大 Low acceptance, due to large smog	噴霧小，人員接受度高 High acceptance, due to small mist and small dosage
是否需烤箱 Oven Required	水性防霉劑需要過烤箱 Water-based anti-mold agent needs to go through the oven	不需烤箱 No oven is required
效果 Effect	疏漏未噴的地方會有發霉的疑慮 Unsprayed areas may have moldy possibility	隨著空氣流動平均分布 Moving together with air flow to sterilize evenly in the package
環保 ECO-Friendly	傳統防霉劑噴霧大，需加開除濕機降低發霉機率 The traditional anti-mold agent needs high dosage which requires a dehumidifier to reduce moldy possibility	噴霧小，無需加用除濕機也不會發霉 Small dosage; so no need to use a dehumidifier. Perfect anti-mold effect

倉儲防霉 Storage Anti-Mold

由於原物料層層疊放，水分已滲入材料纖維裡，即使開除濕機也無法除去潛藏在纖維裡的水分。透過SB-CH00防霉劑來滅菌是目前最有效的方式！

In the warehouse, the raw materials are stacked by layers, and the moisture has penetrated into the material fibers, even dehumidifiers cannot remove the moisture inside of the fibers. Sterilization through SB-CH00 anti-mold agent is the most effective way at present!

| 防霉劑用量試算 | Calculation of the amount of antifungal agent

空間 Place	一次用量 One-time use	每月用量 One-month use
坪數 105 pings	1.5 Liters	6 Liters

| 除濕機電費試算 | Calculation of dehumidifier electrical costs

除濕機瓦數 Dehumidifier Wattage	使用數量 Usage Amount	除濕時數 Dehumidification hours
4.3 KW	6 sets	5 Hours

節省百分之七十的除霉費用

Save up 70% Anti-Mold Costs!
